

2 – DAY MICROSOFT EXCEL (BASIC LEVEL)

Introduction

Organisations the world over rely on information to make sound decisions regarding all manner of affairs. But with the amount of available data growing daily, the ability to make sense of all of that data is becoming more and more challenging. Fortunately, this is where the power of Microsoft® Office Excel® 2019 can help.

Microsoft Excel can help you organise, calculate, analyse, revise, update, and present your data in ways that will help the decision makers in your organisation steer you in the right direction. It will also make these tasks much easier for you to accomplish, and in much lesser time, than if you used traditional pen-and-paper methods or non-specialised software. This course aims to provide you with a foundation for Microsoft Excel knowledge and skills, which you can build upon to eventually become an expert in data manipulation.

Course Objectives

By the end of this course, you will be able to:

- Create & develop Microsoft Excel worksheets & workbooks in order to work with & analyse the data that is critical to the success of your organisation
- Get started with Microsoft Excel 2019
- Perform calculations
- Modify a worksheet
- Format a worksheet
- Print workbooks
- Manage workbooks

Methodology

- Hands on Learning with Instructor guidance

Who Should Attend?

This course is intended for students who wish to gain the foundational understanding of Microsoft Office Excel 2019 that is necessary to create and work with electronic spreadsheets.

2 – DAY MICROSOFT EXCEL (BASIC LEVEL)
